COMMENTS:

I do horse riding in this area. I am writing to express how important it is to maintain or even improve the miles of lovely  
bridleways,  
byways and access to the historic lanes in this area. The documents  
do not clearly show where the new bridleways will be. For example  
Bear Lane is an historic lane, WBC has recommended that it be a  
bridleway but on the plans it seems to be shown as a walking and  
cycling route. We need more bridleways to help keep the horses off  
the main roads, not less. Please can you taking this opportunity to  
extend the miles of bridleways in this area, not reduce it. The  
British Horse Society is keen for all local authorities to extend  
bridleways and I am sure they would be interested to support you  
with this.
