COMMENTS:

I am a resident of Orchard Road and wish to strenuously object as Orchard Road has severe drainage issues currently and will suffer serious repercussions for flooding in the road. This has not been taken account of in the planning. The water run off will end into Orchard Road which suffers from flooding issues currently which have not been dealt with by Thames Water anyway. In addition the aesthetic to the houses is in no way in keeping with the look and feel of the ancient village. In addition I would like it to be noted that

billboards have been erected erroneously by the development company and the planning notices removed to make this a difficult task for residents to track down the application. The effort to make this look like a done deal by the development company by the billboards and

probable removal of planning application documents on footpath is worrying and concerning to all those around.
