COMMENTS:

My objections centre on the lack of adequate drainage and severe water run off that has not been properly investigated given severe issues that continually dog Orchard Road which has not been dealt with. The addition of the houses will create significant water run off onto the road in which we live which is not structurally able to deal with this additional water that will be created. This has been poorly handled and not investigated fully I don't believe the research into this has been fully investigated. The impact would be devastating to dwellings already on this road. In addition the look and feel of the homes are not in keeping with the bucolic village feel and have not been sensitively dealt with in their design or look. I object fully to this development for these and many other reasons.
