8. Conclusion

The proposed conversion of the garage to habitable accommodation plus changes to fenestration constitutes development and thus requires planning permission. Permission is not available under Article 3 of the Town and Country Planning (General Permitted Development) Order 2015, the proposal not being in accordance with Schedule 2 (Part 1) (Class A) of the Order as it would conflict with planning condition 3 & 4 of consents 00330 & 980584.

3. The extended garage hereby permitted shall be used only as a private garage for purposes ancillary to the use of the dwelling on the site as a dwelling and it shall not be used for business purposes. Furthermore the garage shall not be converted to living accommodation without the prior permission of the District Planning Authority.
3. In the interests of amenity and to ensure that the garage is retained for use in accordance with the District Planning Authority parking standards.

04

The area shown on the permitted drawings for vehicle parking and garaging shall be kept available for such use and no development, whether permitted by the Town and Country Planning (General Permitted Development) Order 1995 (or any Order revoking and re-enacting that Order) or not, shall be carried out on the land so shown or in such a position as to preclude vehicular access to this parking space.

Development without adequate provision for vehicle parking would lead to parking inconvenient to other road users and detrimental to highway safety.
