COMMENTS:

Taylor Wimpey are complaining that they can not get cars through to the field to carry out ecological surveys despite residents legally parking safely on the road as they have done for years. They have sent aggressive letters to residents which is out of their remit as they do not own the highways and police are not going to tell residents to move cars which are parked legally.

If they can not even get a small van or car through how are they planning on getting building materials to the site? They seem to have only now realised that the road isn't suitable despite this being pointed out for months.
