COMMENTS:

There are several areas where I object to the planning application

1. This part of the village does not have the infrastructure to support more houses i.e. no local shops, buses etc. people would have to get in their cars to go anywhere and this will create more traffic and noise in the village.

2. The increased population would put more pressure on the local school. I am not sure it could cope with increased numbers.

3. We have always had problems with the sewage system where blockages occur between our house and the sewage station at the end of the village. I am not sure it could cope with more houses

4. I don't believe this planning application adheres to the local plan which we all voted on. If this goes ahead what if the point of a local plan?

5. These houses will border the new nature reserve which has been planned without these houses in mind. Any new houses built on this land will impact the new nature reserve with increased noise, unsightly buildings bordering the nature reserve, problems for wildlife birds etc.
