COMMENTS:

I live just off Old Wokingham Rd close to the junction with Easthampstead Road. The junction there is notorious for accidents. No council wants to support the safety of the area. The traffic is heavy all the time. So much building work with Holmes, nine mile ride and Beaufort park but infrastructure for safe pavements along OLR, no Bus routes even. Construction Lorry's have already damaged the local roads, so many potholes. Make the roads safe for cars and for pedestrians and cyclists who want to explore the area. We can't. I feel the area is over populated already and enough is enough. Please survey the area and see what we're already putting up with
