

COMMENTS:

On the whole we find the proposals acceptable. Our only concern is the proposed enclosure of the porch. We feel this would be to the detriment of the street view and query whether this is in accordance with the conservation area status.

The porches of houses 42 and 44 are a single structure, are original and have a very attractive curved design. The removal of this would cause a loss of symmetry. Both porches were restored and repaired a few years ago by a local craftsman and they enhance the historical appearance of both houses.

PLANNING REF : 253143

PROPERTY ADDRESS : 42 Sturges Road
: Wokingham, Berkshire
