COMMENTS:

Arborfield is now full to the brim with houses the roads out of the village into Reading or Farnborough are horrendous, there are no where near enough amenities for the current level of housing let alone adding this development! I,ve lived here since 2003 and the village and surrounding area has felt like a permanent building site all this time! No more we are full and Wokingham council have been irresponsible with their planning and this development will be yet another example of total disregard for the quality of life in the village!
