COMMENTS:

I object. I can't believe that even considering building on this small bit of land., if they built those houses here it will make Emmbrook even more busier people will struggle even more to get their kids into the schools. And to see the GP ,
Why don't they build a nice nature park there for people to go and sit and relax why is it they got to build houses on every spare bit of land going. Can't we leave some green spaces in Emmbrook for people to enjoy . imagine if they went ahead with it, they would have to chop down all those nice trees in that bit of land as well . I'm also concerned about the noise. People will have to endure while they're building it.
