COMMENTS:

I have lived in Harmar Close for 55 years so I can speak with some authority on the noise and sound impact on this area before and after the Greene King redevelopment works .
I have read the Noise Control Policy, and did attend the meeting on 29th July.

- 1) All music has always been allowed internally only, with windows closed.
- 2) Garden area - we asked for it to be closed at 9pm in line with other pubs but not agreed to.
- 3) TV/Speakers volume limited. It is the volume from 100+ sports fans that cannot be

turned down!

- 4) There should not be any external music.

All the measures have been in place but not always implemented. Accoustic fences that were agreed would help but there was no budget for them. However Greene King will get quotes and provided they are not extortionate will find the money - if the cost is considered extortionate then no accoustic fences??!

I have lived here long enough to know what the noise levels were like and what they are now, due to the change from family pub to adding an outside Live Sports Bar.

I object to this application on these grounds.
