COMMENTS:

I would like to register my objection and concerns for this application. This area is prone to flooding every year and it is close to a wildlife sanctuary. The opportunity for contamination to local protected wildlife is very high and must be taken into consideration. It will be impossible for the depot to 100% avoid fuel spillage. Considering the increase of new housing in the area the flood waters are more likely to reach this land unless a solid flood prevention project is put in place prior to the depot being reinstated.
