COMMENTS:

I understand that towns need to develop and that things change, and whilst I don't agree with the development full-stop, I've accepted that it's happening. That said, there needs to be some balance and consideration for the families that live close to the development and the knock-on effect to the surrounding residents. The increase in traffic, noise and pollution, is already having a serious negative effect on our quality of life, both physically and on our mental health. Our children are also being effected; there is a risk to their safety particularly around school hours with large lorries parked along Viscount Way with engines running and also large lorries using Gemini Road as a cut through. So with all this in mind, I ask you to please be considerate in this regard and not allow extended work times.
