COMMENTS:

I fully support the establishment of a mosque in Winnersh. The local Muslim population has grown significantly, and a dedicated place of worship will reduce travel burdens while easing congestion at existing mosques. Muslims contribute meaningfully to society in healthcare, education, and business, and this center will promote inclusivity and community engagement. We are committed to being good neighbors and fostering mutual understanding. I urge you to consider the positive social impact this mosque will bring to our diverse community.

Best regards,
Jahangeer Hussain
