COMMENTS:

I would like to formally object to the proposed development. I frequently travel to the Thames Valley area, and the traffic during morning peak hours is already extremely challenging. Introducing additional housing and the inevitable increase in vehicle numbers will significantly worsen congestion on an already overstretched road network.

As someone who has only recently moved to Reading, I am concerned about the long-term impact this development will have on the quality of life in the area. The roads are already congested, and any further strain may make daily commuting increasingly unmanageable. If the local infrastructure cannot be improved to accommodate this level of growth, I would have to reconsider living in this area.

In its current form, this development does not appear to take into account the existing traffic pressures or the impact on residents who rely on these routes for work and essential travel. I therefore strongly object unless proper infrastructure planning and traffic mitigation measures are put in place.
