COMMENTS:

Dear Sir/Madam,

I am writing to object to the above planning application. I have lived on this street for over 40 years and care very much about the area. It is a residential street, and I am worried that this proposal will change its character and have a negative effect on those of us who live nearby.

The plan to put a static caravan on this small plot and cover most of it in hardstanding seems completely unsuitable for a residential area like this. It doesn't fit in with the rest of the street and feels out of place.

The trees on that plot were there for many years and were one of the reasons the land was never built on before. I was very upset to see them gone. I understand that some new trees are being planted, but they're not in the same places, and some important trees seem to have been left out altogether. It's a real loss.

I'm also worried about the amount of hardstanding that's being put down. It makes me question whether more buildings or caravans will be added later on. This would make the site much busier and could cause disturbance for those of us living nearby.

There's very little information in the plan. It's hard to tell exactly what is going to be built or how it will look, which makes it difficult to know what we're being asked to accept.

I've also heard that there was digging in the public highway to try and get access to water, which wasn't allowed. The road was damaged and has still not been fixed. That's not a good start for any development and makes me concerned about what might happen next.

I ask the council to think carefully about what this would mean for the rest of us who live here and to refuse this application.

Yours faithfully,
Jan Frostick
