COMMENTS:

I find the revised plan for this development still a big concern for the local area - the influx of residents will be a huge drain on local resources such as Schools & Health Services.

I have a lot of local family members in the area and I am concerned that the proposed development will impact their quality of life especially those who will be reliant on using the above mentioned services in the local area.

In addition it is destructive to a beautiful local area with wildlife and green spaces for local residence to enjoy.
