

Dear Sir/Madam,

Thank you for your response below to our planning application relating to tree maintenance.

More information regarding the Hornbeam (T1) has been requested to validate our application.

After careful consideration, and consultation with a local tree surgeon, we would like to fell the Hornbeam. The tree is preventing the improvement of a severe damp problem to the outside front wall of a grade 2 listed property.

Please let me know if I can provide any more information.

Many thanks in advance for your help.

Warmest wishes,

Rebecca
