

Arboricultural Method Statement

All tree work is to be undertaken in accordance with British Standard BS3998:2012. Please refer to Arbrech Consulting Ltd. Tree Schedule, Arboricultural Method Statement and Tree Protection Plan, for full details of all surveyed trees and how all aspects of the development may be implemented without detriment to retained trees.

Please notify us of any discrepancies found. Atotech Consulting Ltd. cannot be held responsible for inaccuracies in the Data Drawing in which this plan is based.

This drawing is designed to reflect the principles of the layout or design only, and relates only to the protection of retained trees.

This drawing is not to be read as a definitive part of the engineering or construction designs or method statement.

An architect or structural engineer should be consulted over any matters of coordination, detailing or specification in relation to any standards or regulatory requirements relating to proposed structures, earth retaining or underground services.

This drawing was produced in colour - a monochrome copy should not be relied upon.
