Comments On Proposal

The total numbers of habitable rooms will remain unchanged as six. As both the existing and proposed garages do not fully meet the council's requirement for car parking, there will be no gain or loss of garage parking space. Two driveway parking are proposed within the red line.

According to the WBC Car Parking Standards, the development of such scale in Village location will require two parking within the red line boundary. Each parking space shall have minimum dimensions of 5.0m x 2.5m.

The proposed driveway has ample spaces for more than two parking spaces, which is acceptable.

The proposed garage remains suitable for cycle storage, which is acceptable.
