Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.
