COMMENTS:

I wish to endorse all the comments by other residents of Silverdale Road; I write as the owner of the property closest to the proposed development. During the last couple of years I and my fellow residents have been inconvenienced by extra parking, blocked access to School Hill and the inevitable intrusive noise of construction. These things were just about acceptable in the knowledge that they would soon come to an end with the completion of the new care home. Now we are presented with the permanent prospect of an intrusive and inappropriately large building of even greater height, detrimental to our site lines and the blight of noise pollution particularly in the summer months when we would like to enjoy our gardens. We therefore object in the strongest terms to this proposed detriment to our quality of life.
