COMMENTS:

Whilst reviewing the plans I made an observation of a potential error on one of the documents - block plan NMR216b:001RevA. The block plan NMR216b:001RevA does not match the floor plans. It suggests that the extension will be built along the boundary wall and overlap/attach to the garage at 216A. The plans NMR216b:111 Rev- and NMR216b:110 Rev- show a clear 950 cm gap between the extension and the boundary/garage. Would appreciate confirmation that planning permission refers to the floor plan detailed drawings and not the block plan.
