COMMENTS:

I would like the following points to be considered

1. The areas shown on the maps are incorrect as the front area of the house is currently owned by Persimmons and not the owner of the house at No 2 Steggles Close Woodley.
2. Proper consideration needs to be given to parking for the residents and support staff. There is space on the drive for 2 cars (Maximum) and there is no other available parking in the Close except on the pavement of other residents houses which would be unacceptable.
3. Bearing in mind the nature and age of the residents at this property it would be expected that there could be considerable noise and disruption to the other residents in such a confined community
