COMMENTS:

I would like to object to this application. Islandstone Lane is a very well known Hurst flood zone, being unusable by any vehicles or pedestrians on numerous occasions throughout the year, every year. This is well documented as the lane is often physically closed off by barriers for a number of days on each occasion. The plot in question is at the very centre of the main problem section of the lane, by adding in so many additional pitches will surely only add to the problem with water run off, affecting both the road and the neighboring properties.
