COMMENTS:

I am soon to move to Winnersh from a very populated area that has a several mosques/places of worship. The amount of problems with parking around the area where the mosques are situated has caused our local supermarket to limit parking for customers due to those using the supermarket to park while visiting the mosque as as parking limited particularly on a Friday leaving no spaces for those wishing to shop. No consideration for residents either who have had their driveways blocked as nowhere else to park. It started off fairly quiet but after a few months it became busier around the area with more traffic.

I chose Winnersh for the less populated area as well as the traffic being a lot less than where I am living at the moment and of course the village community.

It would be a shame for it to change which I believe will happen in the near future.
