NOTIFICATION OF APPROVAL OF PLANNING PERMISSION

Application Number: 242029
Applicant Name: Mr Thomas Roberts
Site Address: Victoria Gardens, 31 Barkham Ride, Wokingham,
RG40 4EX
Proposal: Full application for the change of use of land for the
stationing of a caravan for mixed use purposes for
1) office to manage the Victoria Gardens caravan
site and 2) office in connection with property
services business (retrospective)
Date of Decision: 25 September 2024

Wokingham Borough Council in pursuance of its powers under the above Acts and Regulations hereby **grants permission** for the above development to be carried out as stated in the application and the accompanying plans submitted to the Council subject to compliance with the following conditions, the reasons for which are specified hereunder.

Conditions and Reasons

1. Approved Plans

The development hereby approved shall be carried out in accordance with the following plans:

06 A – Site Plan

Received 11th September 2024

04 – Plans and Elevations

Received 6th August 2024

Reason: For the avoidance of doubt and to ensure that the development is carried out in accordance with the application form and associated details hereby approved.

2. Use of the office

The office hereby permitted shall only be used for the maintenance of Victoria Gardens mobile home park (Victoria Gardens, 31 Barkham Ride, Wokingham, RG40 4EX) and for a property servicing business which is operated by the applicant (Mr Thomas Roberts).

Reason: In granting this permission the local planning authority has had regard to the special circumstances of the case, being the relationship between the use of the office and the applicant and in the interest of the amenity of the area. Relevant policy: Core Strategy policies CP1 and CP11.

3. Connection to Victoria Gardens

For the lifetime of the development, the office, at all times, has to be used, at least in equal part, in connection with management of Victoria Gardens mobile home park, 31 Barkham Ride, Wokingham, RG40 4EX.

Reason: In granting this permission the local planning authority has had regard to the special circumstances of the case, being the relationship between the use of the office and the applicant and in the interest of the amenity of the area. Relevant policy: Core Strategy policies CP1 and CP11.

4. Drainage Scheme

Within 3 months of the date of this decision a drainage scheme for the development shall have been submitted to and approved in writing by the local planning authority. The scheme as approved shall be implemented in accordance with the approved details, if it has not already been done so, within 2 months thereafter.

Reason: Due to insufficient detail being contained within the submission and to ensure the development is equipped with sufficient drainage provision in accordance with CC10 of the MDD.

5. Ecological Enhancements

Within 3 months of the date of this decision an ecological enhancement plan, including bat and bird boxes affixed to the office for the development shall have been submitted to and approved in writing by the local planning authority. The scheme as approved shall be implemented in accordance with the approved details within 2 months thereafter.

Reason: Due to insufficient detail being contained within the application and to ensure the development will support and encourage biodiversity on site in accordance with CP7 of the Core Strategy and TB23 of the MDD.

6. Non-compliance with details

If no scheme in accordance with conditions 4 and 5 above is approved within 3 months of the date of this decision, the use of the office in its entirety shall cease until such time as a scheme approved in writing by the local planning authority is implemented.

Reason: As this is a retrospective permission and to ensure the development is equipped with sufficient drainage and biodiversity enhancements in light of policies CC10 and TB23 of the MDD and CP7 of the Core Strategy.

Informatives

1. Please note that if the works carried out depart from the scope of this planning permission and a retrospective application under Section 73A is subsequently required, there may be CIL liability implications. The scope of any retrospective planning application will cover the chargeable development for the purposes of CIL, this will include past works that are unauthorised and any additional future works included within the planning permission. If the total floorspace of these works is over 100sqm, they will be liable to pay CIL. In such cases, no CIL exemption can be claimed, and payment will become due immediately as development for which planning permission is granted under a subsequent Section 73A or Section 177(1) application must be treated as commencing on the day any such planning permission is granted. Any demolished floorspace will not be able to be considered for offsetting if the relevant building is not on the land on the day that the permission is granted.

2. Whilst it would appear from the application that the proposed development is to be entirely within the curtilage of the application site, the granting of planning permission does not authorise you to gain access or carry out any works on, over or under your neighbour's land or property without first obtaining their consent, and does not obviate the need for compliance with the requirements of the Party Wall etc. Act 1996.

3. This permission does not convey or imply any approval or consent that may be required for the display of advertisements on the site for which a separate Advertisement Consent application may be required. You should be aware that the display of advertisements without the necessary consent is a criminal offence liable to criminal prosecution proceedings through the courts.

4. Great Crested Newts are a protected species under the Conservation of Habitats and Species Regulations 2017 (as amended). This site is wholly within a red risk zone according to modelling undertaken to inform a Borough wide licence issued by Natural England. Red zones contain suitable habitat and most important areas for Great Crested Newts. The permission granted does not provide authorisation for development to proceed under the Wokingham Borough Council District Licence for Great Crested Newts. Should any Great Crested Newts or evidence of Great Crested Newts be found prior to or during the development, all works must stop immediately and an ecological consultant contacted for further advice before works can proceed.

All contractors working on site should be made aware of the advice and provided with the contact details of a relevant ecological consultant.

5. This permission does not convey or imply any approval or consent required under the Wildlife and Countryside Act 1981 for protected species. The applicant is advised to contact Natural England with regard to any protected species that may be found on the site.

6. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development as set out in the NPPF.

Signed

Date: 25 September 2024

PLEASE READ THE NOTES ISSUED WITH THIS DECISION NOTICE BELOW

WOKINGHAM BOROUGH COUNCIL

TOWN AND COUNTRY PLANNING ACTS TOWN AND COUNTRY PLANNING (ENGLAND) 1990

Other statutory legislation: This decision notice relates to the above stated acts and regulations only and does not constitute approval under any other legislation.

The Town & Country Planning (Development Management Procedure) Order: This decision has been made in accordance with the requirements of the National Planning Policy Framework (NPPF) and in the requirement to work with the applicant in a positive and proactive manner.

Officer Report: An officer report explaining the decision will be available to view online.

Purchase notices: If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that the owner can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council which will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter I of Part VI of the Town and Country Planning Act 1990.

Appeals to the Secretary of State: If your application has been **refused** by the Borough Council or **granted subject to conditions** that you are not happy with, you have the right to appeal to the Planning Inspectorate (under Section 78 of the Town and Country Planning Act 1990). This must be within the timeframes set out below. Please note an extension of time for lodging an appeal is unlikely to be granted except in special circumstances.

12 weeks from the decision date above in the case of a refusal of a 'householder' application:
Being the refusal of an application for planning permission to alter or extend a house, or for works within the curtilage of a house; or,
Being the refusal to approve details submitted as required by a condition imposed on a permission granted for a householder application.

12 weeks from the decision date above in the case of a refusal of a 'minor commercial' application:
Being the refusal of an application for development of an existing building or part of a building currently in use for purposes in Use Classes A1, A2, A3, A4 and A5

where the proposal does not include a change of use, a change to the number of units, development that is not wholly at ground floor level and/or does not increase the gross internal area of the building.

6 months from the decision date above in the case of all other appeals made under s78(1) or s20 of the above Acts relating to a decision on a planning application or listed building/conservation area consent application.

6 months from the decision date above in the case of any appeal made under s78 (2) of the Act in respect of a failure to give a decision within the statutory period.

The Planning Inspectorate is an Executive Agency reporting to the Secretary of State for Communities and Local Government. The Inspectorate has an online appeals service with information and guidance about the process. You can submit [full application appeals](#) and [householder application appeals](#) with the new appeals service. [Other application types](#) should be submitted on the current appeal service. Alternatively, you can obtain a form from the Planning Inspectorate at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN, 0303 444 5000 or through the [Inspectorate's website](#). Please note all documents will be published online by the Planning Inspectorate and therefore you should not include personal information you do not wish to be displayed in this way. This includes personal information of third parties.

In the event of a grant of planning permission, please note the following:

Community Infrastructure Levy (CIL): When planning permission is granted for a development that is CIL the Council will issue a liability notice as soon as practicable after the day on which the planning permission first permits development. Completing 'Form 2', the assumption of liability notice, is a statutory requirement for the liable party(ies) to be completed for all CIL liable applications. Advice on how the Regulations may impact you and how you can properly discharge the relevant legal requirements including paying any relevant CIL charge that may be due is available on our [Community Infrastructure Levy advice \(wokingham.gov.uk\)](http://wokingham.gov.uk) website pages.

Discharge of Conditions: This consent may contain conditions that require further approval by submission of an application for approval of details reserved by condition and the appropriate fee. Application forms can be obtained for this purpose by visiting the [Planning Portal](#).

Street Naming and Numbering for new dwellings: If this notice relates to approval of new dwellings, please ensure that you contact the Council at least 16 weeks before the commencement on site to arrange for an address and post code to be allocated. Details can be obtained from streetnamingandnumbering@wokingham.gov.uk. Failure to contact the street naming and numbering department at least 16 weeks before commencement on site will result in the addressing and post code for the development being delayed.

Access to privately owned land: The applicant is reminded that this permission does not give right of entry to land not in the ownership of the applicant. Permission must be sought from any other landowner(s) if access is required.

Gas Mains and Services: Building over a gas main or service that is located within your site could cause damage to pipework or potential gas leaks within buildings. You should check for information relating to services within your site at [Home - LinesearchbeforeUdig \(lsbud.co.uk\)](http://Home-LinesearchbeforeUdig.lsbud.co.uk) and contact the Plant Protection Team at SGN on 0800 912 1722 or plantlocation@sgn.co.uk.

Building Regulations: The development subject to this permission may also require Building Regulation approval to ensure it is built to national safety, design, and environmental standards. The Council's Local Authority Building Control (LABC) service offers a full range of plan approval, inspection, and associated services through an ISO9001 nationally accredited team of qualified building surveyors. These surveyors work closely with the Council's planning department to ensure the appropriate construction of your build. To find out more visit the Council's [Building Control website](#) or call 0300 790 0580 to speak to a member of the team.

Fire Regulations: In accordance with the Berkshire Act 1986, when Building Regulation applications are submitted for building(s) or extensions, the Local Authority will reject the plans unless, after consultation with the fire authority, they are satisfied that the plans show the following:

- i) That there will be adequate means of access for the fire brigade to the building(s) or the extended building(s); and,
- ii) That the building(s) or extension(s) will not render inadequate any existing means of access for the fire brigade to a neighbouring building.

Biodiversity Net Gain: The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition “(the biodiversity gain condition)” that development may not begin unless:

- a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan if one is required in respect of this permission would be Wokingham Borough Council.

Biodiversity Net Gain Exemptions and Transitional Arrangements: There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These are set out in [paragraph 17 of Schedule 7A of the Town and Country Planning Act 1990](#) the [Biodiversity Gain Requirements \(Exemptions\) Regulations 2024](#), and [The Environment Act 2021 \(Commencement No. 8 and Transitional Provisions\) Regulations 2024](#).

Biodiversity Net Gain Irreplaceable Habitat: If the onsite habitat includes irreplaceable habitat (within the meaning of [The Biodiversity Gain Requirements \(Irreplaceable Habitat\) Regulations 2024](#)) there are additional requirements. The Biodiversity Gain Plan must include, in addition to information about steps taken or to be taken to minimise any adverse effect of the development on the habitat, information on arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat.

The planning authority can only approve a Biodiversity Gain Plan if satisfied that the adverse effect of the development on the biodiversity of the irreplaceable habitat is minimised and appropriate arrangements have been made for the purpose of compensating for any impact which do not include the use of biodiversity credits.

Biodiversity Net Gain Section 73(2D): If planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 (application to develop land without compliance with conditions previously attached) and a Biodiversity Gain Plan was approved in relation to the previous planning permission (“the earlier Biodiversity Gain Plan”) there are circumstances when the earlier Biodiversity Gain Plan is regarded as approved for the purpose of discharging the biodiversity gain condition subject to which the section 73 planning permission is granted. Those circumstances are that the conditions subject to which the section 73 permission is granted:

- i. do not affect the post-development value of the onsite habitat as specified in the earlier Biodiversity Gain Plan, and
- ii. in the case of planning permission for a development where all or any part of the onsite habitat is irreplaceable habitat the conditions do not change the effect of the development on the biodiversity of that onsite habitat (including any arrangements made to compensate for any such effect) as specified in the earlier Biodiversity Gain Plan.

Biodiversity Net Gain Phase Development: If the permission which has been granted has the effect of requiring or permitting the development to proceed in phases, the modifications in respect of the biodiversity gain condition which are set out in Part 2 of [The Biodiversity Gain \(Town and Country Planning\) \(Modifications and Amendments\) \(England\) Regulations 2024](#) apply. In summary: Biodiversity gain plans are required to be submitted to, and approved by, the planning authority before development may be begun (the overall plan), and before each phase of development may be begun (phase plans).
