

Statement of Community Involvement

DM Scheme Number	24002549
Scheme Name	EP – OCU Church Lane Compound, Shinfield - Planning
Author	Poppy Summers
Document Reference	Statement of Community Involvement
Revision	0.1
Date of Issue	February 2025

Approved	Rory Hollings
-----------------	---------------

1. The proposed development is to assist maintenance and update of essential infrastructure to ensure continued local and regional electricity supply and will therefore provide overall betterment to the local community.
2. As the compound is in direct support of wider works that is included in SSE's publicly available commitments for the current priced-controlled period and has been operated continuously for the same purpose for nearly 5 years, the community will be aware of the ongoing use of the site as a works compound.
3. Further details of this are included within the planning supporting statement.
4. To date, the operator of the Site has not received any complaints or claims of nuisance from the public. Given the Site's use will not change (the planning application is submitted to retain the compound on a permanent basis for 8 years) it is anticipated that the local community will not be adversely impacted by the development.
