COMMENTS:

Having lived permanently at River Bend for 35years, on the main stretch of Loddon Drive, I am now alarmingly concerned at the increase in non-resident traffic on the drive. It is coming mainly from the A4 end. The cars and cyclists are using it as a cut through. Despite signs and speed humps, they pay no heed to speed or bends and are an accident waiting to happen. This will only get worse when work is started on the 430 new houses on the same area of A4. The traffic will obviously use Loddon Drive as a rat run, especially in rush hours, when they will inevitably be in a hurry. I fully support a gate
