

251310 Land at Blackcroft Farm Reading Road Arborfield

Screening Opinion CONSULTATION RESPONSE

I have reviewed the above proposal, and the attached archaeological desk-based assessment (DBA) submitted with the application.

There are potential/known archaeological assets within the proposal area, and I agree with the conclusions of the DBA re the potential of this site for archaeology.

Therefore, if it is considered that screening is required for this development, I would recommend that archaeology be scoped in.

Should this be the case, I also recommend that the archaeological consultant liaise with us at an early stage, to discuss mitigation requirements.

Kind regards

Linden
