

Town and Country Planning Act 1990 (as amended)

Creation of new access

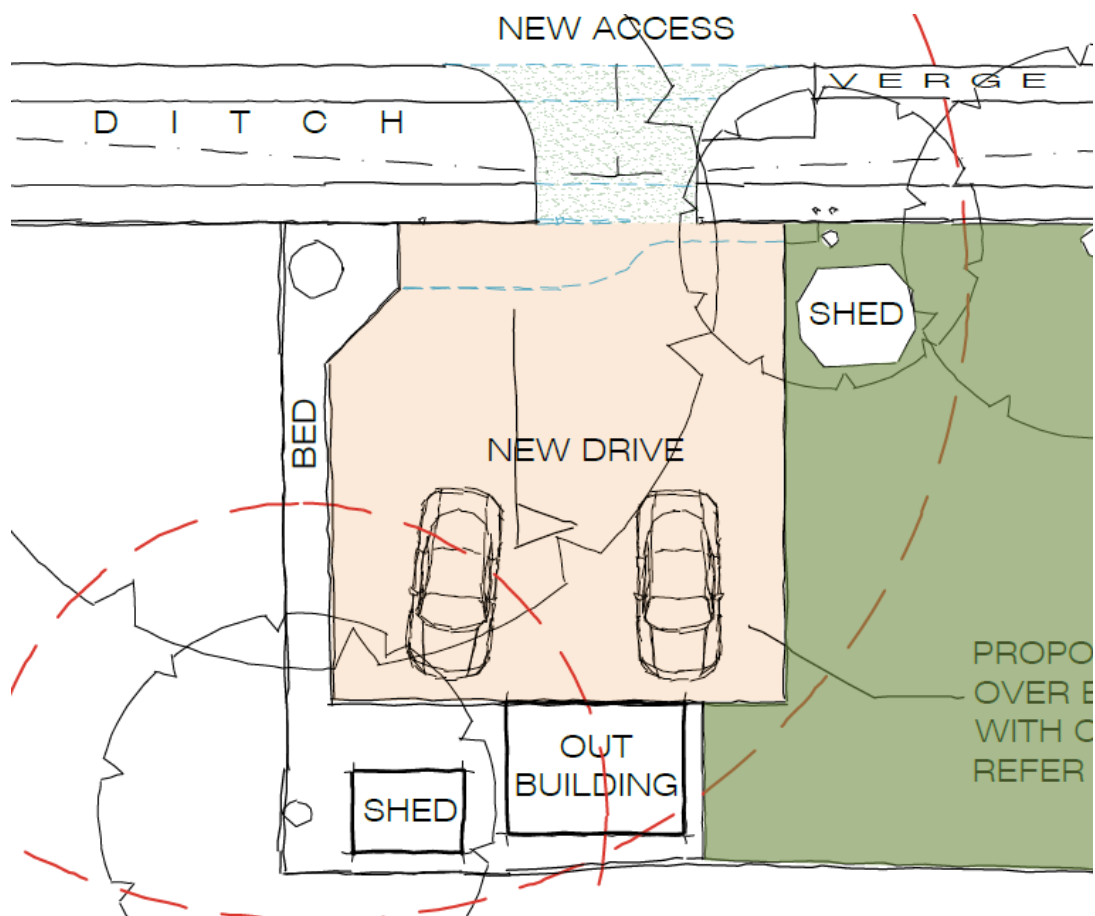

Wyse Hill Lodge, Finchampstead, RG40 4JR

The existing car parking consists of two spaces accessed via a narrow lane off the main road. The current parking arrangement consists of a garage with a space in front.

In this regard, the existing situation requires tandem parking with reversal into the lane for egress.

The proposed parking arrangement will retain two spaces but allow side by side parking with forward access and egress.
