Dear Mrs Murray,

TREE PRESERVATION ORDER NUMBER: 1818/2021
APPLICATION NUMBER: 252365
LOCATION: 23 EARLE CRESCENT, WOKINGHAM, RG40 2FJ

I am writing to you regarding your application to carry out works to protected tree(s), which was received and validated on the 01 October 2025.

I can confirm Wokingham Borough Council **consents with conditions**, to the following work being carried out to tree(s) included in the above-mentioned Tree Preservation Orders (TPO):

Approved works to A1 of TPO 1818/2021:

T1, Sycamore (A1 on TPO) - Whole crown and lower limb reduction to boundary line but with consideration of crown shape, reduction approximately 3 metres.

Reasons stated for works:

Weight of T1 canopy significantly skewed to left side (approximately 6m canopy from main stem compared to rest of T1 canopy approximately 1-2m) and overhang of 23 Earle Crescent Garden, concerns if left without maintenance, will cause instability to main stem and risk of damage to property through snapping of overhanging limbs/collapse of main stem.

The consent is granted subject to the following conditions:

1. The above works must be completed before 25 **November 2027** and in the event of the works not being completed by that date, further consent will be required.
2. Work must be carried out in accordance with British Standard 3998 – 2010 'Tree work - Recommendations'.
 - No works shall be carried out to reduce the height of the tree. All pruning is to be confined strictly to lateral branches overhanging the applicant's property.
 - Only secondary and tertiary branch growth may be removed. No primary scaffold branches are to be cut, shortened, or otherwise altered.

- Care must be taken to retain as natural a crown profile as is practicably possible given the asymmetric form of the tree.
 - Works shall be limited to that required to reduce end-weight on limbs extending over the boundary and to address the asymmetric loading. No additional thinning, lifting, or reduction is authorised.
3. Climbing spikes shall not be used whilst undertaking any form of works on living trees, except on trees to be felled.

Reasons for conditions 1-3...

1. To ensure that our records remain accurate.
2. To maintain the tree's aesthetic value, structural integrity, and physiological health, and to ensure that the works do not result in excessive leaf loss, large pruning wounds, or other detriments likely to impair the tree's long-term vitality or visual amenity.
3. Spikes can cause extensive long-term damage to trees.

Informative:

If you are aggrieved by any of the conditions attached to your consent, you may appeal to The Planning Inspectorate (PINS). Because of coronavirus (COVID-19), you currently can only make a planning appeal online. You cannot currently apply by post.

For more information go to:

<https://www.gov.uk/government/publications/tree-preservation-order-appeal-form>

Telephone: 0303 444 5570 or e-mail it to: treeandhedgeappeals@planninginspectorate.gov.uk
Your appeal should be received within one month of receipt of this decision or any such longer period as the Planning Inspectorate may allow.

You are advised that this letter is in respect of the **Tree Preservation Order only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent may be required.

If we can be of any further assistance, please contact the Tree and Landscape Officer via email to: development.control@wokingham.gov.uk

Yours sincerely,

Chris Hannington
Trees and Landscape Team Manager

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
www.forestry.gov.uk
