

Tree locations have been identified as best could be achieved. The topographical survey was unable to pick up all the trees due to the dense vegetation and limited access. The photographic footage helps to identify these trees better.

The trees are dead and therefore are considered exempt from requiring consent from the local authority via formal application. However, a 5 day notice of the intended works will need to be presented to the council prior to these works taking place. Reference section 14 of the Town & Country Planning Regulations 2012.

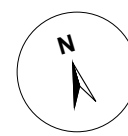

DEAD TREE REMOVAL PLAN
