Dear Matt & Stefania,

SUBMISSION OF DETAILS TO COMPLY WITH CONDITIONS

LAND TO THE SOUTH OF ANNE'S MANOR

PLANNING PERMISSION 190900 (FULL PLANNING APPLICATION FOR THE PROPOSED CHANGE OF USE OF LAND FROM NIL USE TO D2 FOR PROPOSED SUITABLE ALTERNATIVE GREENSPACE (SANG) WITH ASSOCIATED LANDSCAPING. TO BE READ IN CONJUNCTION WITH APPLICATIONS 190914 & 191068.)

CONDITIONS REFERENCES 233179 & 250690

Thank you for your application for approval of revised landscaping details pursuant to condition 5; specifically changes to the boundary treatment adjacent to the railway line as an alternative to that specified by Network Rail in their consultation response at the application stage (informative 10 refers) and previously approved. Although Network Rail have not responded to the formal consultation, correspondence included with the application establishes they are satisfied that the boundary is sufficiently secured and there is no need for an additional fence to be erected. Consequently, there is no objection to the revised details, which are approved.

Below is a summary of the current position, including approval of these revised details:

- Acceptable details have been submitted in relation to conditions 3 (footpath construction), 4 (earthworks and contouring), conditions 5 (landscaping), 7 (AMS and SMR), 8 (LEMP), 9 (Public Art) & 14 (SuDS scheme): work should be carried out in accordance with the approved details.
- The details pursuant to and 11 (CEMP) are also acceptable subject to confirmation of the proposed construction route(s) prior to commencement of the second phase of works.
- The details to comply with condition 10 (archaeology) are also acceptable and I look forward to receiving the report of the investigation in due course.

This provides a brief overview of the current position and I refer you to the schedule for more detailed comments on each condition. If you have any queries, please contact the case officer, Emy Circuit.

Yours sincerely,
