Comments On Proposal

Thames Basin Heaths SPA

The site is within the 5km to 7km linear mitigation zone for the Thames Basin Heaths SPA. However, the application is below the threshold number of new dwellings for there to be likely significant effects (alone or in combination) on the SPA. It therefore can be screened out from appropriate assessment and does not need to secure mitigation in relation to the Thames Basin Heaths SPA.

Other Ecological Matters

The submitted Preliminary Ecological Appraisal (John Wenman Ecological Consultancy, ref: R3206_PEA_a, June 2026) highlights a number of matters that would need to be resolved at technical details consent stage. However, there are no ecological issues that present a reason for refusal at the permission in principle stage.
