

242193 and 242180, Glasspool Farm Part Lane Riseley Wokingham RG7 1RU

As per our previous response to applications 230260 and 160121 for this property, the area has archaeological potential and it is likely that any ground works relating to this proposed development may impact below ground archaeological remains.

As this proposal relates to Prior approval submission I have not attached my recommendation advice letter, however I would be happy to provide one if required. If a full application is required I request that we be consulted as there are likely to be arch implications.

Kind regards
