COMMENTS:

I am writing to object to the proposed plans for the housing development on Longwater Road.

There are many reasons I am objecting, and they are as follows;

The first reason I am objecting to this planning is due to the fact the development is simply unsustainable. We do not have enough nurseries/ schools, doctors, dentists and shops to cater to the needs of any additional people. I have friends in the immediate area who are already looking for nurseries for their small child, so there cannot be more children competing for the already limited spaces. The nhs primary care network responsible for aborfield, swallofield and finchampstead stated in a recent application that it is at full capacity.

Secondly I feel this development would be detrimental to the surrounding nature. This site is in the countryside, where we often see wildlife such as deer, and outside the settlement boundary according to the wbc local plan. The density of the proposed development means street lighting would likely be proposed, unlike the rest of the village, which would also have an urbanising effect and again be to the detriment of wildlife on the adjoining nature reserve.
