COMMENTS:

I strongly object to the proposed plans and hope you will take the time to read my reasons why.

I live locally to this area and have family whom neighbour the site where this development is. Looking at the plans and knowing this area, I can see this site consists of a much higher housing density than any of the neighbouring housing, which I believe means it will be out of place and is better suited to the centre of a settlement. Not only will this do harm to the local area but I also do not see how this number of additionally people can be sustained by the local amenities, such as shops and doctors.

I also know that's this is a poorly connected village in terms of public transport. There are no bus routes and the closes train station is 3 miles away, so again can only truly be accessed by car. All the new settlers will need to use cars solely for transport, resulting in a much higher volume of traffic.

I hope you consider my objection, along with the objection of the locals, families and friends of those living in this area.
