

Application No: 251457

Submitted by: Mr Syed Abbas

I am referring to the Application Number: 251457

Site Address: Parcel 8, Finchwood Park, Sheerlands Road, Arborfield, Wokingham, RG40 4QY

I have spoken to Wokingham Council grass and land acquisition team couple of times where I was referred to the developer for the maintenance of this area and later the developer routed me to the Realty Development Services.

Anyhow, currently no one is taking the responsibility of this area as might be its in the middle of Council taking over.

I have already made my reservations over the application online within timeframe given by the council.

I am interested to share the pictures that I could not put online to the application here to be seen by the planning department/committee so they can better understand the condition right at the front door of some houses.

These are wild, with allergy concerns, blister roots and bushes, and unbearable front area.

If the area is not covered previously then please take care of this as the other areas are already in really good shape and taken care constantly.

We (whose front doors has this wilderness issue) are also high tax payers to the council and needs it to be taken care for us to get it fixed.

I am highly anticipating that we will get some great outcome of your planning for this area.

Thank you.

Syed Abbas
