COMMENTS:

I strongly object to this planning application. This is a beautiful area of countryside that should be protected, not built on. The access roads would be impractical and create a dangerous junction onto the main road. Additional houses would also have a negative impact on the limited public resources in the village, which are already over-subscribed. Furthermore, I have often seen various wildlife species during my walks in the area, whose habitat would be put at risk if the development were to go ahead. There would be much more suitable sites for redevelopment, such as empty office building in urban areas, where there are much better resources and close access to public transport.
