COMMENTS:

I am writing to register my objection to Planning application number 241967, in respect of the proposed extension to 7 Lane End Close, Shinfield. I am the resident of the adjacent property, 8 Lane End Close.

My objection is based on the following grounds:

The proposed extension and alteration of the east elevation of the property in question will significantly obstruct and remove light to my property, and have an overbearing impact due to the height of the proposed extension.

The extension will also adversely affect my privacy to a significant degree, in that the proposed extension and dormer windows will directly overlook my bedroom and lounge area, both of which face eastwards. The proposed dormer windows and extension will be built immediately adjacent to, and above, the existing boundary fence between my property and number 7 and as such will overlook two of the rooms I use the most - both of which have existing picture windows facing east.

Equally, the outlook I currently enjoy from my property will be adversely affected by the proposed extension.

As a registered disabled person, with a diagnosed terminal illness, the proposed extension will significantly detract from my ability to receive quiet enjoyment from my garden. It will therefore have a detrimental effect on my health and quality of life.

I would therefore ask that the Council refer the matter to the relevant Planning Officer and reject the proposed building works on the grounds referenced above.
