COMMENTS:

Significant flooding in the area causes overwhelming traffic already. Let alone with nigh on 4000 new homes. Even without the flooding the area is prone to traffic causing significant stress to current residents. Adding an additional 4000 homes, this will be catastrophic. WBC need to do better for the current residents before even thinking about building 100 new homes let alone 4000. Absolutely ridiculous and objectify with every ounce of my being.
