COMMENTS:

This application is over developed for the current infrastructure. The Basingstoke Road B3349 isn't able to cope with the present traffic demands, with long queues tailing back from Jct 11 M4. This application shows no consideration for the extra traffic which would occur with this high housing footprint. The waste water drainage system isn't able to cope with the present demands and over the last few years we have experienced overflowing manholes with waste water flooding gardens and driveways.

We live the other side of the Basingstoke Road to the proposed planning application and therefore would appreciate your consideration.
