COMMENTS:

Having lived in Spencers Wood since the mid 80's, I've seen most of the development happen, these additional houses have gradually impacted traffic in the village to a point that some days it takes 10-15 minutes to even get off the driveway, and regularly 30-45 minutes to reach junction 11, the extra traffic alone will have a massive impact , It's virtually impossible to get a doctor's appointment due to the extra strain the developments have put on the system, I haven't got children in school anymore, but my wife works in a local school which is to capacity and under funded already, not to mention the AWE exclusion area, its there for a reason
