COMMENTS:

I strongly disagree with this application the roof is far to high and will cause us light issues. As the plan states this is another bedroom we concered that this will attract another car to no 59 which there is already major issue with the car park and and the number of vechiles that Mr Squire has. All the surrounding neighbours are feed up with car issues the Squires have been spoken to many times but just dont do anything about it. Finally I would like to point out I thought a planning notice had to be displayed clearly at the front of the property Mr and Mrs Squire had not done this and displayed it on door to the left of property so all neighbouring propertys will not see this.
