COMMENTS:

Good afternoon

We believe that this project for new housing spaces will not be positive in this area because it will destroy the local wildlife (where a family of bambeis resides). It will eliminate a space where families walk and enjoy nature.

Not to mention the fact that the only access to this residential space would be Grazeley Road, a road already overused by local residents. And with a lot of traffic on the link to Basingstoke Road.

More houses, more families, but we still don't have a school or a health center in Three Mille Cross.

For all these reasons, we believe this project should not move forward.
