COMMENTS:

Dear Planning Committee,

I wish to object to the proposed development forty new houses off Longwater Road Finchampstead.

I moved to Finchampstead as I wanted to live in a rural environment. This development will turn this area into a semi-urban environment, as forty houses is the largest number that would be built in the village, it would have street lighting which is not in keeping with the current feel of the village. The increased volume of traffic will lead to even more congestion on surrounding roads, especially with the current number of road closures and diversions which seem to be on-going well into the future.

There are plenty of new housing developments in the surrounding area surely this one is not necessary.

Yours

Hugh Randall
