Planning Issues :

* IMPACT UPON NEIGHBOURING PROPERTIES.
* IMPACT UPON STREET SCENE.

Application Number: F/2000/2738

Appraisal :

IMPACT UPON NEIGHBOURING PROPERTIES

The app being considered is prop single storey rear extension to dwelling to form conservatory. The app is retrospective. The conservatory has hipped roof design which stands at height of 3.235 metres.

The ext. projects 2.970 metres from the rear of the existing property. To the west side the side elevation is of brick wall to a height of approx 3 metres. The neighbouring prop of No 10 has one rear facing habitable window approx 1m - 1.5 metres away from the extension. The overshadowing impact of the extension has been evaluated on the neighb. prop by ~~sunlight testing~~ testing for daylight testing an aspect of height and projection. It is found through the test, that approx 1/3 of the window may be overshadowed by the dev. However due to the orientation of the property it is not considered that this is significant enough to warrant a refusal on the application.

IMPACT UPON STREET SCENE

The property forms a line of terraces. The extn. can be seen over the existing fences to the rear. However it is not considered that the ext. forms a significant detrimental impact on the street scene.
