CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Hi Owen

The proposed is acceptable to the University. As the works could impact pedestrian access, the logistics and programme need to be agreed in advance of works.

Regards

Owais

Subject: ECMWF - Car Park Drainage - UoR Network Connection

Further to our brief discussions yesterday, please find attached the intended revised route for our storm connection. It will be connecting into the same system, just further downstream. This is due to the invert being higher than the as built/survey information.

Once you have reviewed this proposed route, we will mark up a phasing plan to complete the works with your agreement.

Kind regards,
