

# **FULL PLANNING APPROVAL** **DRAFT DECISION NOTICE**

**Expiry Date:** 27 November 2024  
**Application Number:** 242402  
**Location:** West Court, Park Lane, Wokingham, RG40 4QJ  
**Proposal:** Full application for creation of a swimming pool.  
**Recommendation:** Approve

## **Conditions and/or Reasons**

1. Timescale - The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

*Reason: In pursuance of s.91 of the Town and Country Planning Act 1990 (as amended by s.51 of the Planning and Compulsory Purchase Act 2004).*

2. Approved details - This permission is in respect of the submitted application plans and drawings numbered 01 Rev A & Location Plan Rev A received by the local planning authority on 20/09/24 & 01/10/24. The development shall be carried out in accordance with the approved details unless other minor variations are agreed in writing after the date of this permission and before implementation with the Local Planning Authority.

*Reason: For the avoidance of doubt and to ensure that the development is carried out in accordance with the application form and associated details hereby approved.*

3. External materials - Except where stated otherwise on the approved drawings, the materials to be used in the construction of the external surfaces of the extension hereby permitted shall be of similar appearance to those used in the existing building, unless other minor variations are agreed in writing after the date of this permission and before implementation with the Local Planning Authority.

*Reason: To ensure that the external appearance of the building is satisfactory.*

*Relevant policy: Core Strategy policies CP1 and CP3.*

4. No development shall take place/commence until a programme of archaeological work, including a Written Scheme of Investigation (WSI) has been submitted to, and approved by, the local planning authority in writing. The WSI shall include an assessment of significance and research questions; and:

1. The programme and methodology of site investigation and recording
2. The programme for post investigation assessment
3. Provision to be made for analysis of the site investigation and recording
4. Provision to be made for publication and dissemination of the analysis and records of the site investigation
5. Provision to be made for archive deposition of the analysis and records of the site investigation

6. Nomination of a competent person or persons/organisation to undertake the works set out within the WSI.

*Reason: The site lies in an area of archaeological potential, particularly for, but not limited to, Roman remains. The potential impacts of the development can be mitigated through a programme of archaeological work. This is in accordance with national and local plan policy.*

*In view of the nature and scale of the development and the low likelihood of the potential archaeology, should it exist, meriting preservation in situ, an archaeological monitoring and recording exercise in the form of a Watching Brief, on a controlled strip of the area, to the required depth for the development, is likely to represent an appropriate programme of works.*

5. The Development shall take place in accordance with the WSI approved under condition 4.

The development shall not be occupied until the site investigation and post investigation assessment has been completed in accordance with the programme set out in the WSI approved under condition 4 and the provision made for analysis, publication and dissemination of results and archive deposition has been secured.

*Reason: The site lies in an area of archaeological potential, particularly for, but not limited to, Roman remains. The potential impacts of the development can be mitigated through a programme of archaeological work. This is in accordance with national and local plan policy.*

*In view of the nature and scale of the development and the low likelihood of the potential archaeology, should it exist, meriting preservation in situ, an archaeological monitoring and recording exercise in the form of a Watching Brief, on a controlled strip of the area, to the required depth for the development, is likely to represent an appropriate programme of works.*

6. The development hereby approved shall be implemented strictly in accordance with the non-licensed avoidance measures stated within the supporting document Great Crested Newt Statement.

*Reason: To minimise the impacts of development on biodiversity, in accordance with Policy CP7 of Wokingham Borough Council's Core Strategy, Section 15 of the NPPF, Circular 06/2005 and the Natural Environment and Rural Communities Act 2006.*

## **Informatives**

1. The development accords with the policies contained within the adopted

/ development plan and there are no material considerations that warrant a different decision being taken.

2. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development as set out in the NPPF.

3. The applicant is reminded that should there be any change from the approved drawings during the build of the development this may require a fresh planning application if the changes differ materially from the approved details. Non-material changes may be formalised by way of an application under s.96A Town and Country Planning Act 1990.

4. The applicant is reminded that, under the Conservation of Habitats and Species Regulations 2017 (as amended) and the Wildlife and Countryside Act 1981 (as amended), it is an offence to (amongst other things): deliberately capture, disturb, injure, or kill great crested newts; damage or destroy a breeding or resting place; intentionally or recklessly obstruct access to a resting or sheltering place. Planning permission for a development does not provide a defence against prosecution under this legislation. Should great crested newts be found at any stage of the development works, then all works should cease, and a professional and/or suitably qualified and experienced ecologist (or Natural England) should be contacted for advice on any special precautions before continuing, including the need for a licence.

Recommendation and conditions/reasons agreed: *MC*

Date: 25.11.2024

**REMEMBER** - The earliest date for a decision on this application is: **7 November 2024**
